DELIVERY

A. Your spare parts can be shipped along with your ordered gensets. It can be placed on top of the canopies or within the base frame or those spaces that are capable of storing. In such mechanism we can save quite an amount of the shipping cost and be more competitive in the market.

B. If you are specialized in the maintenance service, you can always use air freight or courier service. The original spare parts employing such delivery service can always provide you with an efficient way in getting the units being maintained in an normal operating mode.

QUALITY GUARANTEE

Our excellent relationship with the suppliers has been built with our over twenty years power supply industrial experience in addition to our professional expert engineers, we can promise in supplying different original engines spare parts or employing the spare parts of Tide Power brand for your efficient and normal operation of your generator sets.

Kits & Accessories

- Enhance performance.
- Maximize convenience.
- Simplify maintenance.

A wide range of spare parts & components supplying proves "Tide Power" intent to ensure our customers can maximise generator running time without interruption.
